EXPERIENCE

· Mobile Developer [Android, iOS, React Native] : Exoticca

april 2022 - september 2026

Developed two mobile applications for both **iOS** and **Android** from scratch, targeting both **B2B** and **B2C** clients. I was **responsible** for the applications for the majority of my final years at the company, **handling design**, **development**, and **maintenance**, as well as managing their **release**.

· Software Developer [Android, Web, Backend] : CSQ S.L

june 2020 - april 2022

Maintained the company's Android applications and **developed new features** for the **apps**, **web**, and **backend**. I worked with **payment libraries** (**Redsis**) and Android devices equipped with printers (**Sunmi**).

· Android Developer : Padelmanager

march 2020 - may 2020

Perform app maintenance tasks as well as new development work.

· Android Developer : Viewnext

september 2018 - october 2019

Performed maintenance and developed new features for three Android applications for different clients. **Worked** on **rendering charts** using libraries (**MPAndroidChart**).

EDUCATION

· Master's degree in video game creation: Specialty in design, art and programming : Universidad de Málaga

september 2019 - june 2021

· Higher Technician in Multiplatform Applications Development. : IES Portada Alta

september 2016 - june 2018

PROFILE

Mobile developer with 8 years of experience in **Android, iOS, React Native, .NET**, and **web development**. Participated in every phase—from **conception** to **launch** and **maintenance**—of over seven applications and websites. Experienced in using **artificial intelligence** to **optimize design, development, and issue resolution.**
